SKILLS

Windows Server | Linux

Active Directory

Networking: DNS, DHCP, Firewall

Virtualization

Cybersecurity - Backups

MySQL, SQL Server & NoSQL

KNOWLEDGE OF

JavaScript - Typescript

React - Next.js

HTML5 - CSS3 - TailwindCSS

NodeJs - Express

Redux

Java

Python

Testing

LANGUAGES

ENGLISH

Fluent

SPANISH

Native

STUDIES

Higher Vocational Degree – Systems and Network Administration | ASIR

Sep 2025 - Present

- Administration and maintenance of **Windows Server** and **Linux** environments, including user management, **Active Directory** and system security policies.
- Deployment and management of **virtualized infrastructures**.
- Installation, configuration and monitoring of **network services** (DNS, DHCP, FTP, HTTP/HTTPS), ensuring availability and performance.
- Implementation of cybersecurity measures: firewall configuration, backups, access control and vulnerability prevention.
- Database administration with **MySQL** and **SQL Server**, including installation, backups and basic performance tuning.
- Querying and manipulation of **XML** data using **XPath**, **XQuery** and **BaseX**.

PERSONAL PROJECTS (WEB DEVELOPMENT)

MOVIE AND TV SERIES DATABASE

<https://ntmd.vercel.app/>

Next.js application to explore movies, TV series and people, with static and incremental generation of over 1000 pages and queries to external APIs and databases.

FULLSTACK TO-DO LIST

<https://todolist-prod.vercel.app/>

To-do list written in **React** with registration, authentication and CRUD operations via **Google Firebase**.

SEARCH ALGORITHM VISUALIZER

<https://search-algos-visualizer.vercel.app/>

Interactive visualization of **search algorithms** in React, with maze creation, walls and interactive cursors

SORTING ALGORITHM VISUALIZER

<https://leomrel.github.io/Sorting-Visualizer/>

Visualizer of **sorting algorithms** written in **Typescript** with the **React** library.

ACADEMIC BACKGROUND

Baccalaureate Degree in Humanities and Social Sciences

May 2012 – Nov2018
